

LITE ROUTE

Solothurn hike

DAY 06

Today we take a day off the bikes and give you a free day with some options.

Try to let us know the night before if you choose to do something away from the group.

Hike:

The hike is a little over 11 kilometers and will bring you through town, along the river, into forests, past a castle-museum and into a mysterious grottos with idyllic chapel and hermit's residence. The terrain is often dirt and gravel and you have a total ascent of around 120 meters, and so it's a long, but easy hike and we promise that you'll see a lot !

We'll finish by taking a bus to the top of the Jura mountains where you will have stunning views of Solothurn until the Alps.

The van driver will set out everything that you need to pack a sack lunch in the inside "lounge" area at 9:00 and we'll plan to leave at 9:30 .

Or...

Enjoy the day in the way that you like.

Just let us know.

Supper is this evening at the hotel.
