 Cablecar to Niederhorn

## Day 5: Free Day off the bikes

As you probably discovered last night, there is a lot to do in Thun and after three tough days of cycling, you deserve to sleep in a bit.

You've got the day off: go shopping, see the museums, swim in the lake or go up the Niederhorn for a bit of hiking.

Those opting for the hike on the Niederhorn should inquire about the best way to proceed at the hotel's reception, as this will depend on the weather conditions.

 Explore the Niederhorn

Make sure to take a small backpack, suncream, sunglasses, a hat, extra clothing if it gets chilly and comfortable walking shoes. Once at the top, you may consider renting a trotinette to coast down the mountain...a popular way of descending !
