

 Chateau Sarraz

Day 3:

Morges → Yverdon

Distance:

40 Kilometers

Climbing:

396 Meters

Points of Interest:

- ★ **Sarraz** : Château de Sarraz (recommended picnic spot)
- ★ **Yverdon** : Cathedral, Cafés, Yverdon lakeside, Maison D'ailleurs, Mineral baths

You will start the day with some steep climbs on well-paved roads as you leave Morges.

Stop in Cossanay to pick up some picnic supplies at the Coop grocery and then have a picnic at the chateau in La Sarraz (another 10 km down the road). The chateau houses two different museums: the first showcases life at the chateau during medieval times while the second museum is called "The Horse Museum" and is devoted to tracing the history of the this animal in society.

You will be meeting with the #5 bicycle path once you are in the town of La Sarraz.

From La Sarraz, the cycling is much easier. If you arrive early enough, the city center of Yverdon is fun to explore. The Maison d'Ailleurs is a museum dedicated to science fiction, utopia and extraordinary journeys. It is also in the center of town and so worth a visit.

📍 Yverdon Centre

But the big attraction in Yverdon are the mineral baths which are on the premises of your hotel. So find your check-in, take a shower and get in that warm water. Access to the baths is included as part of your hotel stay.

📍 Lakeside Yverdon

The restaurant at the hotel is excellent, but Yverdon's centre is quaint and so maybe you would prefer to eat there. If the evening is warm, you may consider exploring the pedestrian streets of the center and eat outside.
